

SUNSETS IN THE CLARKSVILLE COUNTY AREA

One of the best things about living in the Clarksville area are the sunsets. Whether you are living in the countryside or alittle closer to the city area, you can always go outside and enjoy a lovely sunset. There are alot of things to enjoy while watching a sunset, the most important part are the colors. While the sky is going from day to night, the sky has warm colors, from a soft dark blue to a pale orange. While you are in the “Getway to the South”, make sure to check out a sunset.
